WORK EXPERIENCE

Instantly Creative | Qwesty: Property Marketplace Software Developer

Remote
May 2024 - Present

- **Project Inception:** Initiated the Qwesty project from scratch using Next.js, TRPC, PostgreSQL, Prisma ORM, and TailwindCSS. Worked as a full-stack developer, handling backend and majority of frontend development.
- **Feature Development:** Developed features like Property Listing, Property Search based on Geo-location, Appointment Booking, Offer Management, and user authentication flows.
- **Integrations:** Integrated third-party services like Google Maps API for location-based services, Sendbird for messaging, and Veriff for identity verification.

Instantly Creative | MyFaithbase: A Social Network for Christians Software Developer

Remote
February 2024 - Present

- **Platform Redesign Development:** Led the development of the MyFaithbase app frontend redesign using Next.js, TRPC, PostgreSQL, Prisma ORM, and TailwindCSS.
- **New Feature Development:** Worked on features like Creator Paid Subscriptions, Devotional Plans with Friends, Enhanced Audio Player, and user experience enhancements like Videos Autoplay in the feed, post reactions, and blog integration.
- **AI Integration:** Integrated AI features for automated transcriptions and classification of user-generated content including posts, images, and videos.

Plotlabs Technologies Software Developer

USA (Remote)
September 2022 - January 2024

- **Temo.ai: Project Inception-** Initiated the Temo.ai project from scratch using Next.js, creating a robust and scalable product.
- **Temo.ai: Chrome Extension Development-** Developed a Chrome Extension for user interaction capture and recording DOM interactions.
- **Temo.ai: Video Processing-** Built a custom video processing service using ffmpeg, enhancing media handling capabilities.
- **Temo.ai: AI Integration-** Implemented AI features for demo summary automation and voice generation using Langchain and OpenAI APIs.
- **Lessonbee.com: Platform Revamp-** Led the overhaul of the Lessonbee platform with Next.js 13, modernizing the tech stack.
- **Lessonbee.com: AI-Driven Enhancements-** Introduced AI-driven features for Semantic Search and a learning catalogue search.
- **Lessonbee.com: CMS Integration-** Streamlined content management by setting up Hubspot as the CMS, optimizing content workflow.
- **Lessonbee.com: Feature Ownership-** Managed end-to-end development of key features using Next.js, React, and Node.js.

TECHNICAL SKILLS
